

SPECIALE SANDALO

A prototype handcrafted, with the help of a shoemaker.

We do not produce footwear but we offer this knitted application to be used as an embroidery.

Double inlayed yarns added to an ikat plated stitch. Shaped as required by the paper pattern, it is particularly suited to the three-dimensionality of the foot: no cut is required and there is no waste.

In knitwear it is easy to dedicate a jacquard area for the brand logo.

The thermosetting materials offer a good consistency to the knitted upper which can also be placed and sewn to a leather or hide part.

Machine: STOLL ADF530-32 Ki Bc W Multi Gauge

Gauge: 7.2

Techniques: Stoll-ikat plating®, Stoll-weave-in®, Partial processing or Flexage
