

## “WEFT” KNITTED TECHNIQUE

It means passing a yarn through, without being knitted, to create effects similar to the woven fabric which consists of warp and weft.

There are different ways of weaving: in this sample the pattern you see is given by three different inlayed yarns on a single jersey.

With Stoll ADF machines, it is possible to combine the Stoll-weave-in® technique with other knitting techniques such as: Stoll-ikat plating®, Stoll-multi gauges®, Stoll-knit and wear®, intarsia and more.

**Machine:** STOLL ADF530-32 Ki Bc W Multi Gauge

**Gauge:** 10.2

**Techniques:** Stoll weave in®

Yarn	Count	Composition	Colour	Yarn Mill
Erisilk	Nm 2/210000	100% SE	Marrone 413	Torcitura Di Domaso
Paganini	Nm 3/210000	100% SE	Arancio 181	Torcitura Di Domaso
Paganini	Nm 3/210000	100% SE	Rosso 155	Torcitura Di Domaso
